Axolight Jewel 01 LED Suspension

PRODUCT DESCRIPTION
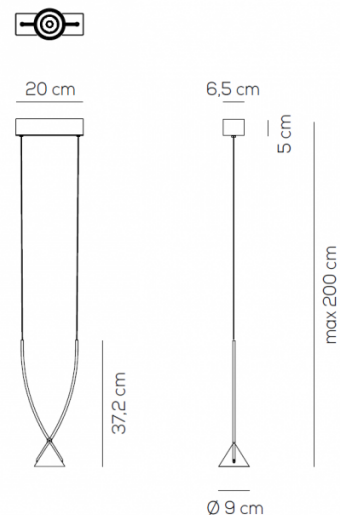

Designer: Yonoh Design Studio

Jewel 01 Suspension by Axolight

One of Axolight's iconic collections, the Jewel is most known for its peculiar shape; a double crossed arch. Jewel 01 was designed by studio Yonoh, founded by Alex Selma and Clara del Portillo. Jewel is actually the first offspring of the collaboration between Yonoh and Axolight. As of 2018, the Jewel lights are made of nylon and recycled glass, and aluminium. It was part of Axolight's celebration of the World Environmental Day, which was dedicated to plastic waste.

Jewel 01 suspension light is a small piece, with very small dimensions. You may choose to install the Jewel as a single piece, or create your own combination of multiple Jewel lights. Jewel lights are also available with 3 Jewel lights in a linear arrangement, or 10 Jewel lights hanging from a circular canopy or 4 Jewel lights from a square ceiling canopy. Sustainable and decorative, the Jewel single suspension light is suitable for any interior space.
