PRODUCT DESCRIPTION

Designer: David Dolcini

Luceplan Lita Floor Lamp

The Lita Floor Lamp, designed by David Dolcini, is a perfect combination of natural elements and modern day technology. If you are looking for a way to optimise the ambience of your space, look no further. The Lita Floor Lamp is a perfect example of how you don't have to sacrifice elegance for a sturdy design.

The two finish options offer two different styles. The ash wood finish is a more natural and calming style, great for Scandinavian or minimalistic interiors. The white finish adds a burst of modernity and is an amazing fit for more contemporary spaces. The rounded surface of the glass diffuser hosts subtle vertical ridges, blurring at each end of the sphere and creating delicate and harmonious lines.

This minimalist lamp produces a gentle and even light, it also features a built in dimmable function in order for you to personalise the ambience of your space. The Luceplan Lita Floor Lamp can be a great new addition in a lounge, next to your desk, or even in a bedroom.
