PRODUCT DESCRIPTION

Northern Ink Wall Light

Like a drop of jet-black ink falling onto a crisp white page, the bold silhouette of the Ink wall lamp creates strong contrasts. All parts have been coloured in matt black and arranged around an adjustable, concave shade that reflects light directly onto the wall. As light from the integrated LED module emanates beyond the shade's rim, a subtle halo effect is created, resulting in a shimmering glow seldom seen in artificial lighting. Although Ink reveals the power that intense black can have, the design itself was inspired by the beauty of nature.

Fascinated by the subtle illumination cast by the moon's reflection in the night sky, the designer decided to create a similar mood in the interior. As a result, Ink projects a uniquely diffuse light from behind its dark outlines, bringing a lustrous glow to the heart of the interior.

PRODUCT SPECIFICATION

Light Source:	6W, 3000K, 550 Lumens
IP Code:	20
Dimming:	Dimmable via mains phase dimming with integrated on/off switch.
Dimensions:	Ø36cm Height: 62cm Depth: 4cm Cable Length: 200cm
