Part of the Akari Light Sculptures, the 26A was designed by Isamu Noguchi, 1951, and made with white washi paper and steel wire structure. This handcrafted, Japanese inspired light has a stunning mid-century feel and a smooth silhouette. The 26A is an oval shaped pendant light with soft textured details, it utilises a paper shade, designed to filter out the light source resulting in a soft glow illuminating the room. Each 26A is handcrafted in the Ozeki workshop in Gifu and finished with a sun and moon logo, guaranteeing authenticity to the owner and resembling their Japanese heritage.

The 26A Pendant is a stunning piece that optimises traditional washi paper and a steel base to create a perfect equilibrium between practicality and ambience. The Japanese word "Akari" is translated to "light", a link to the goal of the entire collection, as the whole collection can be characterised by every lights weightless luminosity.
