Lamella 4 Pendant by Le Klint

Looking back through the Le Klint archives, designers Jonah Takagi & Hallgeir Homstvedt were inspired by the traditional lampshades created in the past and so to create their [Le Klint Lamella collection](#) they brought back to life the traditional production technique of Plica. This delicate technique perfectly mimicked their inspiration, the underneath of a mushroom, which they later discovered the biological name of—Lamella.

This brand new size fits perfectly into the collection and provides a chance to create even more stunning groupings of Lamella pendants. Equally as eye catching as a stand alone pendant, the Lamella 4 provides gentle diffused light bathing interiors in a warm glow. The rib-inspired formal pleats contrast against the soft shape of the pendant, making the Lamella collection a timeless and modern choice.
