PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Melt LED Pendant Light

The prominent Melt pendant by Tom Dixon is now available as an LED version, with a custom-made LED ring. The polycarbonate shade with its irregular shape provokes your imagination making the Melt look like deep space or as if you're gazing at an iceberg.

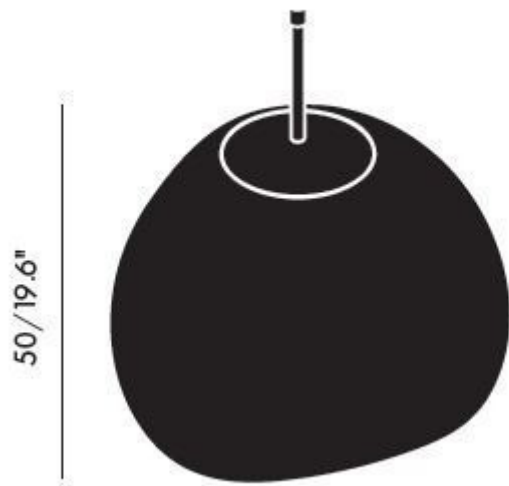

Available in four finishes, each colour has different effects when they're lit and when they're off. Also available is the Mini Melt in a retrofit and LED version. **The integrated LED light engine is replaceable. This can only be sourced via Tom Dixon. Please contact us for details**

[Melt Cluster Pendants](#) are also available, suspended from a multi-canopy to create a stunning display of melted orbs.

Please [contact us](#) for further information and pricing regarding Melt clusters.
