PRODUCT DESCRIPTION

Designer: Louis Weisdorf

Gubi Multi-Lite Table Lamp

In 1972, Louis Weisdorf designed the first Multi-Lite which has now been relaunched by Gubi to produce a [Multi-Lite collection](#) which embraces the golden era of Danish Design. This design is marked by its innovative use of movable spheres, creating a shade that lets the light escape in various directions, giving the owner the freedom to create different atmospheres and lighting possibilities.

With the design now applied to a table lamp, this light is directional and functional and will fit well into a multitude of aesthetics, whether being used for your office desk or your bedside table. With 6 different colours and finishes to choose from, this light will bring a touch of elegance and classic Danish design to your room.
