PRODUCT DESCRIPTION

Designer: Note Design Studio

Orsjo Belysning Vinge Table Lamp

Vinge table lamp by Orsjo Belysning designed with Note Design Studio, they wanted to encourage people to take an active role in their surroundings. This minimal and playful design is full of character and really makes a unique feature within any interior design.

An interactive piece of lighting design, the main feature of the Vinge lamp is to be more hands-on with controlling the amount of light required by the user. Dimming is controlled by rotating the large metal handle which also acts as a charming design feature.

Enamelled frame with dimmer handle in solid brass or enamelled metal. Opal glass dome diffuser, textile cords match the finish of the lamp chosen.

The light source in this lamp is a G9 Halopin 48W max lightbulb that sits inside an E27 globe bulb cover which acts as an inner diffuser sitting inside the lampshade. To replace the lightbulb when it has blown, you need to buy a G9 Halopin 48W max bulb.
