PRODUCT DESCRIPTION

Bella Wall Light by Panzeri

Bella was designed by Enzo Panzeri, the son of Panzeri's founder. The wall light, available with a standard wall fixture or a recessed version, is a compact and sleek light, with a swivel arm. The light can be both tilted, at two points (one up to 70° and the other 50°), or rotate up to 355°, allowing you to adjust the light's direction. A perfect reading buddy by your bed, or next to your favourite armchair; the Bella wall light is perfect for both private and commercial projects, and in hospitality settings.

Bella wall light is available in five modern colour options, white, black, bronze, matt brass or titanium, to match with any interior décor. As with the table lamp, the wall light has an integrated 5 step dimmer, located at the underside of the lamp's head. With the dimmer you can easily adjust the light's brightness to your liking.

The [Collection](#) includes a pendant light, available with indirect or direct light, and a streamlined table lamp, available in the same finish options.

PRODUCT SPECIFICATION

Light Source: 5W, 2700K, 388 Lumens

IP Code: 20

Dimming: Integrated dimmer included on the product.

Dimensions: Standard
