PRODUCT DESCRIPTION

Soleil LED Pendant Light by Le Klint

The Soleil pendant was named and created after inspiration from the sun, producing a pendant that has light at its centre that distributes outwards. Using the iconic hand-pleated style that Le Klint is known for, designer Philip Bro Ludvigsen has combined this with a sleek metal structure and wooden fitting to produce a natural-looking and stylish pendant lamp.

The Soleil pendant light is available in 2 sizes, small or medium, featuring a light aluminium finish with a light oak fitting. The contemporary and chic aesthetic of this pendant light makes it suitable for a wide variety of settings and will particularly thrive when hung over tables thanks to its diffused downward directed glow.
