PRODUCT DESCRIPTION

Designer: Marc Sadler

Twiggy Elle MyLight Tunable White LED Floor Lamp by Foscarini

The Twiggy Elle Tunable MyLight floor lamp is a new addition to the [Foscarini Twiggy collection](#), a range designed by Marc Sadler. This floor lamp enjoys all the beauty and functionality of the Twiggy series along with new technology as it can be **controlled via bluetooth with the Casambi app**. The app allows you to dim the Twiggy Elle floor light, as well as the colour temperature. You can range from 2700K which is a warmest white colour hue to 5000K which is a very cool white. The change of temperature means you can emulate different times of day in your interior and the app also allows you to create different lighting scenarios.

The lampshade sits far removed from the base, held by the arching arm which sleekly creates an intriguing aesthetic. Perfect for lounges, offices, dining rooms and more in homes and commercial settings. Available in 5 colours, black, white, crimson, greige (a mix of grey and beige) and graphite, you can find a Twiggy Elle MyLight floor lamp that will suit your design scheme easily.

This floor lamp must be assembled in a room with a ceiling height that is no lower than 280cm due to height fluctuation of that is a result of the handcraft manufacturing process.
