PRODUCT DESCRIPTION

Designer: Space Copenhagen

Gravity Pendant Light by Gubi

Designed by Space Copenhagen as part of the [Gubi Gravity collection](#), the Gravity pendant has a minimalist and elegant aesthetic that embodies both modern and traditional design ideals. With an antique brass structure, the pendant light has a rustic touch that can be used in many types of design schemes.

The Gravity pendant lamp comes with either a white or canvas shade and provides a nice, diffused glow and also a downward directed illumination that is perfect for hanging over tables. The Gravity pendant light can be used in many interiors and will look fantastic when paired with other lights from the range.
