PRODUCT DESCRIPTION

Designer: Federico Palazzari

Ellisse Double LED Pendant Light by Nemo Lighting

A part of the [Nemo Lighting Ellisse collection](#), the Ellisse Double pendant was designed by Federico Palazzari. The pendant lamp emits a minor uplight and a major downlight, creating an ambient and directed glow that is perfect for many settings.

The Ellisse Double pendant lamp is characterised by 2 rings that can be positioned how you want and sit beautifully suspended in the air. The integrated LED light source is covered by an opal diffuser, which creates a soft illumination that is effective and efficient. The big size means this pendant light is suitable to use as a main light, or you can even use in multiple for much larger spaces. Available in 3 finishes, black, gold painted or white.
