PRODUCT DESCRIPTION

Designer: Bertjan Pot

Random II Floor Lamp by Moooi

The Random floor lamp II is the 2021 updated floor lamp from the iconic [Moooi Random collection](#) designed by Bertjan Pot. The Random II floor light has a special way of being created with each individual lamp being utterly one-of-a-kind. Resin drained yarn is randomly woven around a beach ball to create a 3D fabric. The beach ball is then deflated to leave the striking and stunning lampshade that is unique to every making process.

Available in 2 sizes and in a black or white colour finish, the Random floor light II directs the light in every direction and has a slightly exposed light bulb to create a contemporary look. Suitable for many interiors, this floor light can be used in lounges, dining rooms, reception rooms, offices and many more to create a warm atmosphere and modern aesthetic.
