PRODUCT DESCRIPTION

Designer: Verner Panton

VP Globe Coloured Glass Pendant Light

A part of the [Verpan VP Globe collection](#), the VP Globe coloured glass pendant is made from multiple parts that sit beautifully in an acrylic globe. The multiple reflectors are made from coloured glass and polished aluminium with red and blue colour hints that provide a splash of colour to the light and your interior. The futuristic look of the inner decoration and the combination of glass and metal make this pendant light a stunning addition to any room and will catch the eye.

The VP Globe coloured glass pendant lamp provides an ambient light that mainly directs downwards, making it perfect for hanging over tables and surfaces. You can use alone or in multiple and will look amazing in lounges, offices, dining rooms, bedrooms and many more.
