## In Vitro LED Wall Light by Flos

The In Vitro wall light is made from aluminium, and can be used in both outdoor and indoor spaces. The wall light has a sleek and minimalist design, with a cylindrical silhouette that meets at the bottom. A glass diffuser sits inside and an integrated LED light source sits in the top for a long-lasting illumination. You can also choose between a 2700K (warmest white) and a 3000K (warm white) colour temperature.

The In Vitro LED wall lamp is available in 7 colour finishes, white, pale green, terracotta, black, deep brown, forest green or anthracite, so you can find the right finish for your design scheme. This wall lamp is very versatile as you can use it in multiple to line your corridor, as a welcome home light or as a handy light in your garden and many more possibilities.

**This LED wall light is also available in a dimmable version upon request. Please contact us for more information.**
