## PRODUCT DESCRIPTION

Designer: Marc Sadler

Tress Floor Lamp by Foscarini

The Tress floor lamp was initially inspired by a woman's tress with the natural and random way a tress hangs influencing the criss-cross pattern seen on the lamp. Conceived by Marc Sadler, he collaborated with Foscarini to develop a new technology using the combination of fibre glass and resin tape to create a style characterised by its woven and casual aesthetic.

The Tress floor light is emits an overall illumination that both escapes through the holes and out of the top, providing a warm and effective glow. The floor light is available in 3 colours, white, black and griege (a mixture of grey and beige) and in 2 sizes, medium or large so you can find the right match for your space. Use in bedrooms, lounges, receptions and dining rooms to have a stylish and chic lamp that will light up the room.
