PRODUCT DESCRIPTION

Designer: Nicola Gardin

Fabbian Flow Pendant

The Fabbian Flow Pendant is an elegant suspended lighting solution crafted from crystal glass with chrome detailing. Designed by Nicola Design, this pendant features a textured glass conical shade which is available in either a transparent or white finish. This shade projects the illumination downwards while still allowing some to escape outwards, the result is a magical even dispersion of light.

The Flow Pendant light provides a unique atmosphere, with the texture on the glass producing mesmerising lighting effects across your wall. This luminaire is a perfect addition to kitchens, dining spaces, hotel lobbies, above reception desks and in contemporary restaurants and bars. Flow is able to add a luxurious feel to almost any interior and can be displayed individually or in linear rows and clusters for a more dramatic effect.
