PRODUCT DESCRIPTION

Designer: Nicola Gardin

Fabbian Flow Table Lamp

Designed by Monica Design, the Fabbian Flow Table Lamp creates a unique atmosphere, with the textured glass of the shade emitting playful lighting effects across nearby surfaces. This elegant lighting solution utilises a crystal shade in a conical form with a chrome base, the glass is available in either a transparent or a white finish. Both of these provide varying light outputs - the transparent diffuser emits a bold illumination whilst the illumination projected from the white diffuser is softer and more ambient.
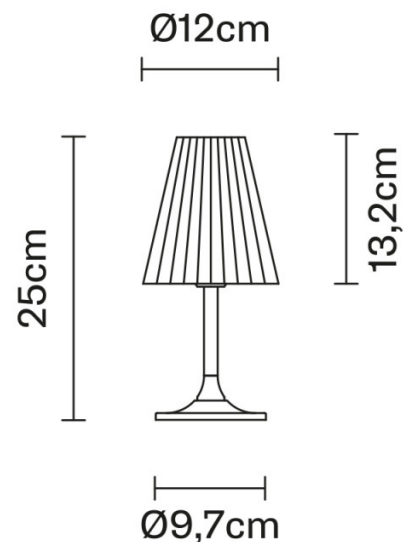

The Flow Table Lamp is guaranteed to add a touch of refinement to your interior, expertly adapting to almost any contemporary environment. Flow makes an excellent bedside table lamp and can also be displayed in living rooms, hallways, dining rooms and spaces in the commercial sector such as hotels, restaurants, on shop counters or reception desks.
