PRODUCT DESCRIPTION

Designer: Marc Sadler

Giga Lite Pendant Light by Foscarini

The Giga Lite pendant was designed after the development of the [Foscarini Mite floor lamp](#) by Marc Sadler. For these lights, the brand and Sadler developed a new patent which combines carbon thread and fibreglass, taking technology that was previously used for oars, golf clubs and fishing rods. The special materials act as both a supportive structure and decoration, producing a pendant that is characterised by a cylindrical shape with a textured, interactive surface.

The Giga Lite pendant light holds three light sources, allowing the light to spread far and evenly, emitting a warm glow from the top and bottom of the shade. Suitable for many spaces, this pendant can be used by itself or in multiple to light the room or as a particular spotlight over a table or surface. Perfect for homes and professional settings, the innovative and intriguing design make this pendant light a chic and stylish addition to the room.

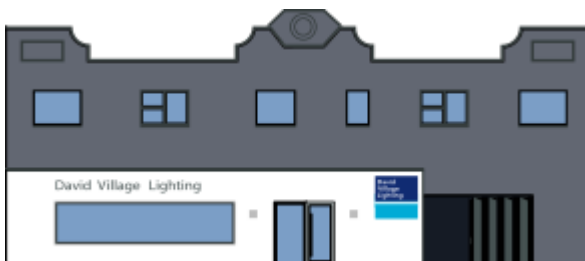

PRODUCT SPECIFICATION

Light Source: 3 x E27 77W max (excluded)
