PRODUCT DESCRIPTION

Designer: BIG

Gople Ceiling Light by Artemide

The Gople ceiling light is the larger version of the [Gople Mini](#) and can be used in a wide variety of settings, perfect for homes and commercial spaces. The ceiling light has an aluminium ceiling base and a blown glass lampshade that has a gradual colour effect. This effect is created by using an ancient Venetian technique and a special vacuum process to create the metallic colours.

The overall aesthetic is alluring and captivating and also creates an inviting illumination which is diffused and directed downwards. The Gople ceiling lamp is available in 5 shade colours, white, bronze, copper, blue sapphire and silver with the combination of 3 base finishes, silver, white or black. You can use alongside other lights from the [Artemide Gople collection](#) for a gorgeous lighting solution to suit all your needs!
