PRODUCT DESCRIPTION

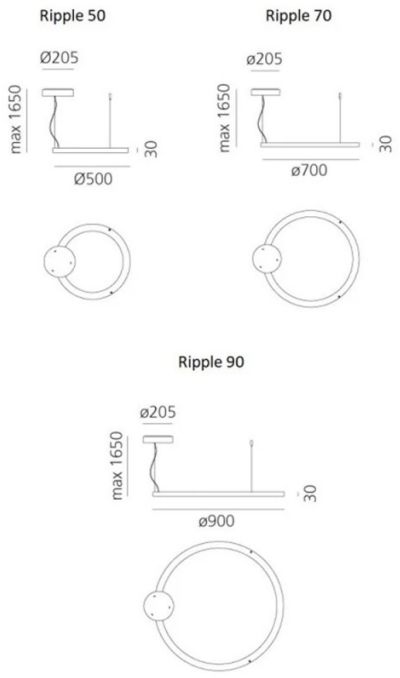

Designer: BIG

Artemide Ripple LED Suspension

Designed by BIG, the Ripple Suspension has an elemental aesthetic, centred on the interplay of space and function and how it will best perform in different spaces. Consisting of a simple circular structure, the Ripple Suspension combines functional light and sound absorption in an innovative design that enhances visual and acoustic comfort. The integrated LED light source provides “pure” bright light, which can be enhanced with the addition of a sound-absorbing diffuser.

The Ripple Suspension is available in 3 sizes: 50, 70, and 90, allowing you to create dynamic arrangements that perfectly fit the space around it. This freedom of configuration transforms a simple-looking design into something striking and full of potential. With a contemporary, innovative design, the Ripple Suspension is an ideal lighting solution for modern commercial spaces such as offices and busy restaurants.

The Ripple Suspension is also available with a fabric acoustic diffuser for a warmer illumination. Please contact us for more information and prices.

PRODUCT SPECIFICATION

Light Source:	**Ripple 50:** 50W, 3000K, 3089 Lumens **Ripple 70:** 50W, 3000K, 3339 Lumens **Ripple 90:** 50W, 3000K, 3378 Lumens
