PRODUCT DESCRIPTION

Designer: Sebastian Summa

ORG P Horizontal LED Pendant Light by DCW éditions

Inspired by science fiction and astronomy, designer Sebastian Summa has created the [DCW éditions ORG collection](#), a beautiful range that resembles shooting stars. The ORG Horizontal pendant is made from opal glass and metal, consisting of multiple tubes combined together to produce a multi-layered and graphic silhouette.

The opal white and brass colour combination creates a sophisticated and elegant look, perfect for use in many settings, whether at home or in a professional space. The ORG Horizontal suspension comes in 3 sizes, the ORG P H 1300, the ORG P H 1600 and the ORG P H 2000 with the numbers representing the width of each pendant light. A poetic and magical pendant lamp, the ORG Horizontal will look gorgeous in your interior and will provide a diffused, inviting glow.
