Kuro Lantern LED Outdoor Portable Light by Astro

Astro Lighting present their first ever rechargeable, solar-powered outdoor lamp, the refined and chic Kuro Lantern light. The Kuro Lantern outdoor lamp has a traditional silhouette updated with modern technology as an integrated LED light source sits in the top. The light casts down, providing a glare-free glow that is warming and pleasing.

The Kuro Lantern LED light has a textured black colour finish so that it can easily slip into any setting or design scheme. The rechargeable and portable capabilities means that you can carry this lamp wherever you want, whether you need an indoor reading light or an outdoor light for an evening meal and recharges either using solar power or the included charger cable. Use in a wide variety of spaces and choose from the smaller 250 or the larger 450 to find the right fit for you.
