PRODUCT DESCRIPTION

Designer: Raimond Puts

Moooi Raimond II LED Pendant Light

The Raimond II Pendant is inspired by the geodesic dome. Designer Raimond Puts was fascinated by the dome's construction and began experimenting with how it could be incorporated into a lighting design. The resulting design showcases two interconnected stainless-steel spheres, each housing a multitude of integrated LED light sources. As well as geometric shapes, Raimond Puts was fascinated by mathematics. This is reflected in the pendant's sizes, 43, 61, and 89, each being a prime number.

While the Raimond II is decorative whether illuminated or not, the pendant comes to life when switched on. The integrated lights emit a soft glow that surrounds the sphere, reflected in the steel structure. This mesmerising display is reminiscent of the soft glow of a starry night. Install above a dining table to create the impression of dining out under the stars. In larger spaces or commercial settings, create an extravagant display of light by installing clusters of pendants in varying sizes.

The Raimond II LED pendant is also available in larger sizes, the R127, R163 and the R199. Please **contact us** for more information.

Please note: These lights are not dimmable via standard mains phase dimming. However, a Moooi wireless dimming switch is available to purchase separately, enabling you to dim your Raimond II fitting without the need for additional wiring. The Wireless switch comes with a dimmable module that is fitted inside the ceiling canopy. Contact us for more information.

PRODUCT SPECIFICATION

Light Source:
R43: 17W, 2500K, 664 Lumens
R61: 29W, 2500K, 1134 Lumens
R89: 40W, 2500K, 1744 Lumens

IP Code: 20

Dimming: Dimmable via Dali and Push to make dimming systems. Please consult your electrician, additional wiring may be required on site.

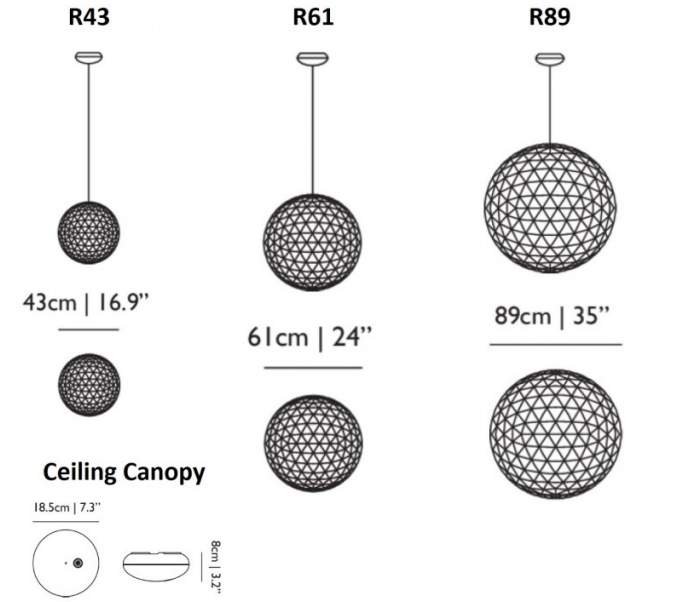

Also dimmable via a Moooi wireless dimming switch, purchased separately. Please contact us.

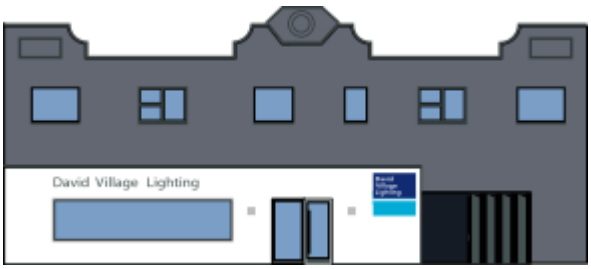

Dimensions:
R43:
Ø43cm

R61:
Ø61cm

R89:
Ø89cm

Ceiling Canopy: Ø18.5cm
Cable Length: 250cm
