PRODUCT DESCRIPTION

Designer: Jean Prouvé

Lampe de Bureau Table Lamp by Vitra

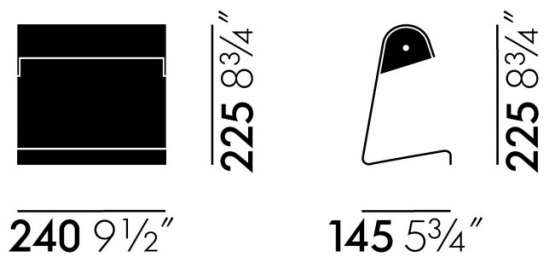

Designed in 1930, the Lampe de Bureau table lamp was created by Jean Prouvé for the halls of residence at the Cité Universitaire in Nancy. The table lamp has a light bulb that sits in the top, reflecting off the shaped metal structure to create a pleasant and effective glow.

The Lampe de Bureau table light is perfect for use as a desk light, being wonderful for reading and tasks. You can also use the table light on beside tables and other surfaces to achieve atmospheric lighting. Available in a range of chic colours, that are all based on original finishes by Prouvé in the 30s. Iconic and classic, its timeless design will remain contemporary in any setting, whether at home, in a work space or commercial interior.
