PRODUCT DESCRIPTION

Designer: Anna Castelli Ferrieri

Kartell Componibili Recycled Storage Unit

A newer addition to the **Kartell Componibili Collection** the Componibili Recycled storage unit is also a part of the Kartell Loves the Planet initiative, using recycled materials as part of production. The storage unit is made from a mixture of elements, taken from sectors such as packaging, furnishing, electrical appliances, and automotive, to create a 100% recycled thermoplastic technopolymer. The material is long-lasting and durable, maintaining the highest quality so that the unit will stand the test of time.

The Kartell Componibili Recycled unit is available in 3 sizes with either 2, 3, or 4 tiers and in 3 matt colours: silver, black or white. The finish is also a soft touch, and the subtle colours mean the unit can slip into any design scheme. The Componibili can be used in a wide variety of settings as handy storage and will add a vintage and stylish touch to any interior.
