**PRODUCT DESCRIPTION**

**Designer:** Anna Castelli Ferrieri

**Componibili Recycled Storage Unit  
by Kartell**

The latest addition to the [Kartell Componibili collection](#), the Componibili Recycled storage unit is also a part of the Kartell Loves the Planet initiative, using recycled materials as part of production. The storage unit is made from a mixture of elements, taken from sectors such as packaging, furnishing, electrical appliance and automotive to create a 100% recycled thermoplastic technopolymer. The material is long-lasting and durable, maintaining the highest quality so that the unit will stand the test of time.

The Componibili Recycled unit is available in 3 sizes with either 2, 3 or 4 tiers and in 3 matt colours, silver, black or white. The finish is also a soft touch and the subtle colours means the unit can slip into any design scheme. The Componibili can be used in a wide variety of settings as handy storage and will add a vintage and stylish touch to any interior.
