PRODUCT DESCRIPTION

Designer: Ionna Vautrin

Foscarini Chouchin Semi Wall Light

Designed by Ionna Vautrin, the Chouchin Semi Wall Light is the latest addition to the Foscarini Chouchin collection, series of lights inspired by the form of traditional Japanese lanterns, which is usually made from paper and is spherical in shape. Made from sleek, shiny blown glass, the wall light sits discreetly on the wall, providing a glare-free glow that is inviting and comforting. The bottom of the lampshade also has an opening so a more concentrated triangular flow of light illuminates downwards.

The Chouchin Semi wall lamp comes with a metal fitting which is available in a gold, white or graphite colour finish. This fitting could add a splash of colour to your interior or subtly slip into your design scheme. An effective and elegant fixture, the Chouchin Semi will last long and retain its style in many settings.

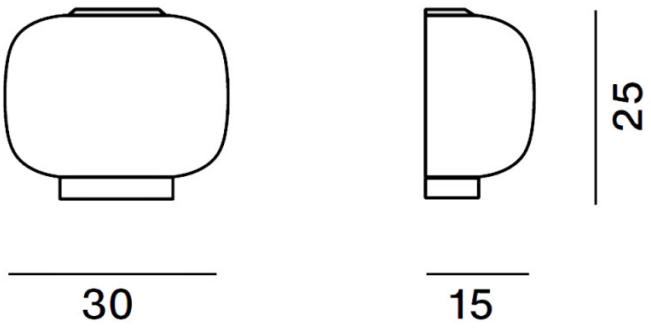

PRODUCT SPECIFICATION

Light Source: 1 x Max 30W E27 (included)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Width: 30cm
Height: 25cm
Depth: 15cm
