Astro Harvard Outdoor Wall Light

The Astro Harvard Outdoor Wall Light is a compact lantern-style wall light with a slim rectangular frame and clear glass panels. Its exposed lamp design adds warmth and character, while the pared-back proportions give it a cleaner appearance than a more traditional coach light. Available in Textured Black and Natural Brass, Harvard can either sit quietly within an exterior scheme or introduce a warmer material detail.

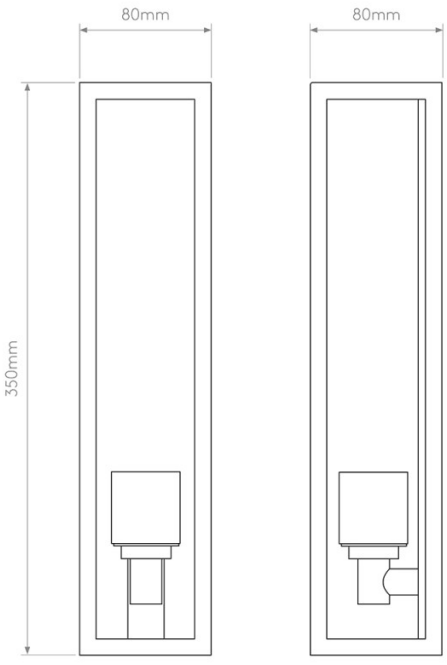

Rated IP44, Harvard is suitable for outdoor use as well as bathroom zones 2 and 3. The clear glass allows the chosen lamp to remain visible, helping to create a welcoming glow around doorways, patios, and hospitality settings. Its simple vertical form also makes it useful in pairs where a balanced architectural effect is needed.

Harvard uses one E27 lamp, sold separately, and is dimmable when paired with a compatible dimmable bulb. It is wired in, suitable for mounting on flammable surfaces, and made from 304 stainless steel with clear glass. Please note that coastal suitability differs by finish, with Textured Black suitable for onerous environments and Natural Brass not suitable for installation within five miles of the coast.

Best suited to exterior walls, doorways, patios, garden walls, hospitality entrances, and bathroom zone 2 or 3 wall lighting.

PRODUCT SPECIFICATION

Light Source:	1 x Max 4W E27 LED (Excluded)
IP Code:	44
Dimming:	Dimmable via mains phase dimming.
Dimensions:	Height: 35cm Width: 8cm Depth: 8cm
