PRODUCT DESCRIPTION

Designer: George Carwardine

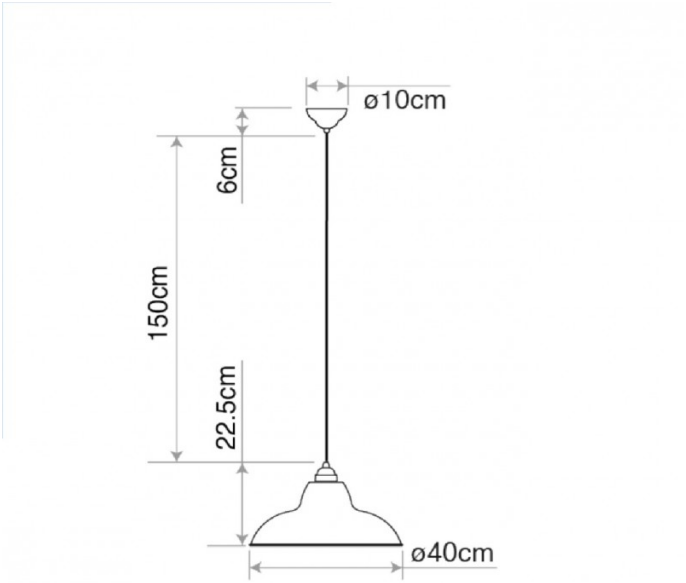

Anglepoise Original 1227 Midi Wide Brass Pendant

The Anglepoise Original 1227 Midi Wide Brass Pendant is a reimagining of the **Original 1227 Midi Brass Pendant**, modifying the iconic 1227 shade into a shallow, saucer-style pendant. Equipped with brass fittings and a braided cord cable, the 1227 Midi Wide adds a contemporary twist to a design classic. Its lower profile and wide diameter create a statement in residential and commercial environments alike.

The Anglepoise Original 1227 Midi Wide Brass Pendant is available in three finishes: Elephant Grey, Ink Blue, and Jet Black. These bold colourways contrast effectively against the brass fittings, softening the pendant's overall appearance for a more decorative aesthetic. Display above a surface to create a wide pool of functional light or, in larger spaces, install multiples in clusters for a unique composition with a bold personality.
