PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Press Surface LED Light

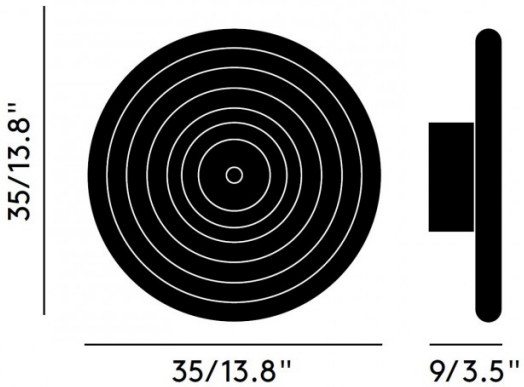

The Press Surface Light is a stunning lighting solution that can be used in a range of interiors, including bathrooms and wet areas thanks to its handy IP 45 rating. The lampshade is crafted from clear glass created by dropping molten glass and pressing it in iron moulds with high pressure and high temperatures. The light source is housed in the centre of the circular silhouette and is projected outwards into the room.

The Press Surface is the perfect solution for many settings, being durable and versatile enough to apply anywhere. It includes three different coloured metal dome caps - silver, gold and black. Whether you need a handy light on your patio, to line your corridor or an ambient bathroom light, this wall lamp is a wonderful choice and will add a touch of class to any space.

The Press Surface Light is fitted with a silver metal dome cap, with easily attachable/removable gold and black caps in the box.
