Revolve Wall Light by Bert Frank

The Revolve wall light takes inspiration from the Mid Century Modern design movement, having simple and clean lines and a minimalist aesthetic. The lampshade is made from spun aluminium, finished in black, white, blue or green and has a polycarbonate diffuser to conceal the light bulb. The shade also has a beautiful brass fitting that sits on the top and bottom for a subtle detail that creates an intriguing look.

The wall light has a gorgeous brass arm that bends over and also has flexibility, being able to rotate through 90° so you can direct the light flow. The Revolve wall lamp is a perfect choice for ambient and task lighting, having a warm and evenly spread glow that is both effective and atmospheric. Use in many settings for an elegant and refined lighting scheme.
