PRODUCT DESCRIPTION

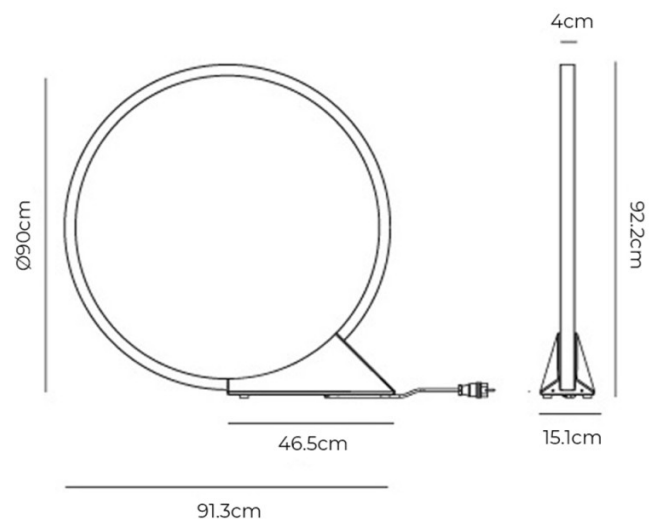

Designer: Elemental

Artemide "O" Floor Outdoor LED Floor Lamp

The Artemide "O" Outdoor LED Floor Lamp, designed by Elemental, is said to frame nature and suggest perspectives even when switched off. The aluminium frame is an element itself which creates balance within an environment. When switched on, the light can easily be controlled, and the comfortable light emission can be adjusted. Artemide describe this outdoor lamp as 'respecting the circadian cycles of all animal and plant species' as its light can be dimmed, directed and focused.

This dynamic outdoor light can easily be relocated and used in multiple environments, meaning that the pleasant ambience can be placed anywhere. Indoor use is also encouraged, as an optional cable can be used to allow this floor lamp to enrich many different spaces with ease. With its striking modern design and gentle light, the "O" lamp can frame any environment, whether indoor or out. For even more dynamic lighting, pair this lamp with other lights from the ["O" collection](#) by Artemide.
