PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Mirror Ball LED Pendant

The Tom Dixon Mirror Ball LED Pendant was inspired by space helmets and disco balls and created by blowing plastic into perfect spheres and internally colouring it with a metallic finish. Tom Dixon uses polycarbonate in these lamps as it is more durable and lightweight, these polycarbonate spheres diffuse the lighting output and project a soft, broad illumination.

Available in either a reflective chrome or gold finish, the Mirror Ball Pendant provides a modern and charismatic touch to any interior, whilst the transparent diffuser at the bottom of the shade allows for a warming downlight to illuminate the surface below. The luminaire can be displayed individually or in multiples, and can easily adapt to a range of modern environments - both residentially and commercially. Its dimmability allows you to personalise the luminance and generate an atmosphere that suits you and your needs.

PRODUCT SPECIFICATION

Light Source: 6W, 3000K, 800 Lumens

IP Code: 20

Dimming: Dimmable using leading edge and trailing edge.

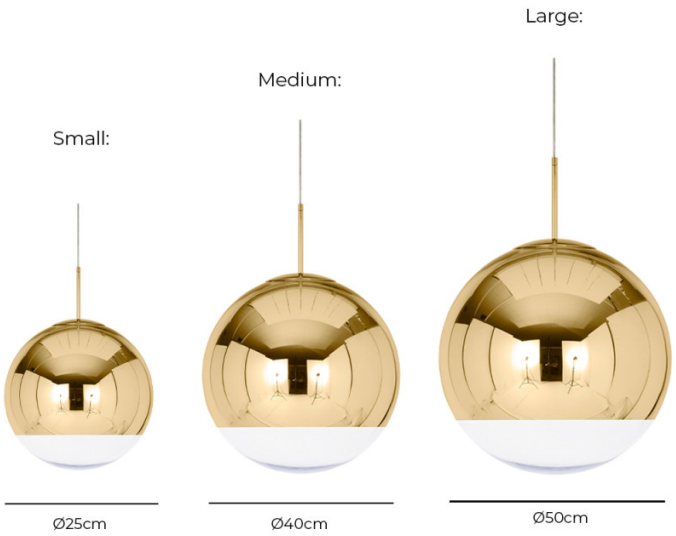

Dimensions:

Small:
Shade: Ø25cm

Medium:
Shade: Ø40cm

Large:
Shade: Ø50cm

Cable length: 250cm
