PRODUCT DESCRIPTION

BuzziJet Standing LED Floor Lamp by BuzziSpace

The BuzziJet Standing floor lamp is the perfect solution for lounge areas and break rooms, providing phenomenal acoustic control and atmospheric lighting. The floor light is made up of a foam lampshade which is held by a curved stem, adding character and personality to any space. The foam shade is upholstered and allows noise to enter and bounce back and forth in order to mitigate low, medium and high tones for a peaceful and easy-going environment.

The BuzziJet Standing floor light comes with an integrated LED light source which is concealed, allowing for an effective and diffused glow. The floor lamp also comes with a dimmer switch so you can control the light level, whether you need a soothing light for relaxing on break or a bright light for focussed working.

The BuzziJet Standing LED lamp is available with a wide variety of lampshade fabrics to choose from, making it a truly personalised light. Please contact our Trade Team for prices and more information.
