PRODUCT DESCRIPTION

BuzziZepp LED Pendant Light by BuzziSpace

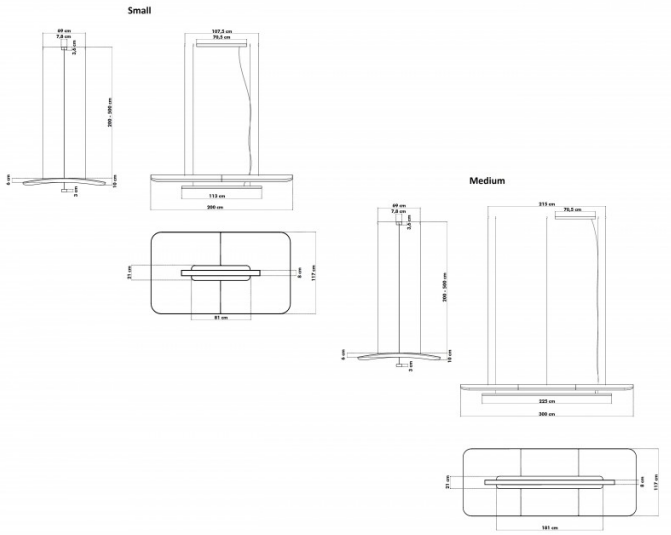

The BuzziZepp pendant light was conceived by designer Alain Gilles and developed by BuzziSpace as a lighting and acoustic solution for workspaces. The aesthetic was created to visually delineate open spaces, being a focal point that brings the whole room together. The pendant lamp is designed to absorb sounds and echos, creating a quiet and intimate space without use for walls or partitions in offices.

The BuzziZepp LED pendant lamp comes with a linear LED light source as standard in two sizes, small or medium, for an overall illumination suitable for a calming atmosphere at a meeting or a bright glow for hard working. Suitable for large work spaces and to hang over big tables and benches, the BuzziZepp pendant is available in a wide variety of colours and fabrics.

The BuzziZepp light comes with a linear LED as standard but can also come with other LED light sources, with the choice between 3 or 5 LED globes or LED spots for a more concentrated glow and traditional look. Please contact our Trade Team for prices and more information.

PRODUCT SPECIFICATION

Light Source:	**Small** - 33W, 3000K, 2300 lumens **Medium** - 65W, 3000K, 4600 lumens
