HAY Arcs Table Lamp

The HAY Arcs Table Lamp was designed in 2021 by Belgian duo Fien Muller and Hannes Van Severen. Drawing on their passion for architecture and materials, their designs sit somewhere between design and art. The scalloped silhouette of the Arc Table Lamp beautifully reflects this approach to design. The freestanding shade adds a sculptural presence to any interior. Crafted from steel, the Arc is available in Auburn Red, Sea Green, Cobalt Blue, and Mirror.

When illuminated, the Arc Table Lamp casts a glare-free uplight, while light escapes from gaps at the bottom of the shade, bathing the surface in a warm glow. This atmospheric lighting is perfect at a bedside, in a living room, or in a reading nook. Display with the Arc Pendant and Arc Wall Light for a bold installation that will add a strong and playful personality to both residential and commercial settings.

Please Note: The cord set for this product is also available in White. Contact us for pricing and information.
