HAY Slant Table Lamp

Designed by Japanese design team BRANCH for HAY, the Slant Table Lamp explores the relationship between shape, space and atmosphere. Its bold, graphic form features a simple slanted aluminium shade, perfectly balanced by a cast iron counterweight concealed within the base. This considered construction keeps every component neatly hidden, preserving the lamp's clean, elemental silhouette.

Finished with a satin wet spray for a smooth, refined surface, the Slant Lamp uses a standard retrofit bulb positioned behind an acrylic diffuser, which softens and evenly distributes the light. Available in several colour options, its sculptural design and functional directional glow make it a striking yet versatile choice for both home and office settings.
