HAY Bonbon Shade Pendant Light

The HAY Bonbon Shade Pendant Light was designed by Ana Kraš after she created her own original technique of weaving wool and nylon to produce textured, one-of-a-kind pieces. Each Bonbon shade is handcrafted individually by weaving carefully selected yarn around a powder-coated steel frame resulting in individual lampshades that vary slightly in their appearance and surface aesthetic. This makes each and every Bonbon shade completely unique and cared for individually as they are painstakingly made by hand.

Each shade is powerfully decorative even when the blub is switched off which is why this shade has featured in exhibitions across the world. This design is a beautiful partnership between craftsmanship and originality, allowing you to have a hand crafted artwork in your home. This gives you the choice of using it as a decorative feature or using the cord, which is included, to illuminate the shade.

When illuminated, the Bonbon ceiling lamp gives off a soft ambient glow that is diffused through the woollen fabric shade. This pendant light is the perfect addition to any interior as it creates a calming atmosphere and softens any aesthetic.

Designer: Ana Kraš

IP Code: 20

Dimming: Dimmable via mains phase dimming
