PRODUCT DESCRIPTION

Designer: Louis Poulsen A/S

Louis Poulsen Toldbod 155 Bollard Outdoor Light

The Louis Poulsen Toldbod 155 Bollard is part of the **Toldbod Collection**, bringing the aesthetic of the range to the outdoors. The Toldbod was developed on the basis of the Ellipse design by Poul Henningsen, which was the last street light he ever conceived. Its minimalistic silhouette and industrial style ensure both functionality and a high-quality aesthetic. The inner light source is projected down onto the surface below, making this a perfect luminaire for illuminating pathways and driveways.

With an IP rating of 44, the Toldbod 155 Outdoor Bollard can be used in many exteriors to provide needed illumination, whilst remaining protected against the elements. The lampshade shines light downwards, creating a wide glow that is effective and warm. The Toldbod bollard is available in either a sleek aluminium or black colour finish to suit your outdoor space
