PRODUCT DESCRIPTION

Designer: Louis Poulsen A/S

Louis Poulsen Skot Outdoor LED Ceiling / Wall Light

The Louis Poulsen Skot Outdoor Ceiling and Wall Light dates back to the early 1900s, when it was developed by designer Lauritz Knudsen. Created specifically for vessels and maritime spaces, the Skot light has since enjoyed success in a wide variety of settings for useful and effective illumination.

The Skot Outdoor comes in two colour finishes, aluminium or graphite grey, and is characterised by its cross pattern. The diffuser also comes in a variety of finishes, with the choice between an opal, clear, half-shaded opal or half-shaded clear diffuser. Each diffuser gives off its own specific glow and lumen output, so you can find the right look for your exterior.

Please Note: The Skot Outdoor Lamp with the half-shaded options can only be installed on the wall.
