PRODUCT DESCRIPTION

Designer: George Nelson

HAY Nelson Apple Bubble Pendant

The HAY Nelson Apple Bubble Pendant was created by American designer George Nelson in 1947. When looking for a set of silk-covered Swedish pendant lamps for his office, Nelson discovered that the options were too expensive. This led him to create a more cost-effective version of the popular pendant, recreating the lampshades using a self-webbing polymer spray developed by the U.S. military. This material has since become a staple in George Nelson's designs and is featured throughout the **Nelson Bubble Collection.**

The Nelson Apple Bubble Pendant has a clean, rounded symmetry. Its delicate and lightweight appearance gives the illusion that the pendant is floating in midair. When illuminated, the shade diffuses light into a soft, glare-free glow, creating a warm and cosy atmosphere. Display individually for a simple, ornate look or, in large spaces, create a composition of lights at different heights for a unique installation that will leave a lasting impression.

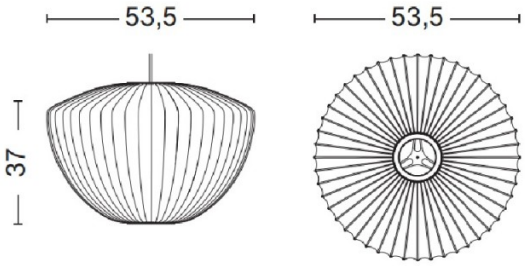

PRODUCT SPECIFICATION

Light Source: 1 x Max 13W E27 LED (Excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Ø53.5cm
Height: 37cm
Cable Length: 300cm
