PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Cala Metal Floor Lamp

Marset Cala Metal Floor Lamp is a plug-in floor lamp by Joan Gaspar, made with a black-painted iron structure and a white polyester PET and Textilene shade. The design keeps the broad shade and simple proportions of the Cala collection, but replaces the wooden frame with a black metal structure. This gives the lamp a cleaner, more neutral look while keeping the shade as the main visual element.

The white shade surrounds the lamp without closing it in, allowing light to pass through the material and spread into the room. Its tall crossed frame gives the lamp presence without making the base feel heavy, so it works well beside a sofa, reading chair, low table, or in a quiet corner of a living space. The black structure adds definition beneath the shade, while staying simple enough for both residential and hospitality interiors.

Cala Metal is supplied with a black cable and an in-line on/off switch. It is available in a Black finish and requires an E27 LED Globe lamp, ordered separately. Most suited to living rooms, bedrooms, lounges, reading corners, hotel rooms, receptions, and interiors where a tall floor lamp can provide warm, shaded light from a slim black structure.

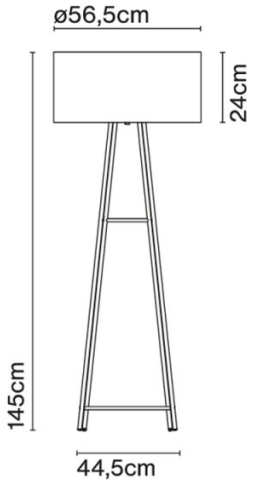

PRODUCT SPECIFICATION

Light Source: 1 x Max 12W E27 LED Globe (Excluded)

IP Code: 65

Dimming: In-line on/off switch included on cable.

Dimensions: Shade: Ø56.5cm
Shade Height: 24cm
Height: 145cm
Base Width: 44.5cm
Cable Length: 200cm
