PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Atlas Pendant Light

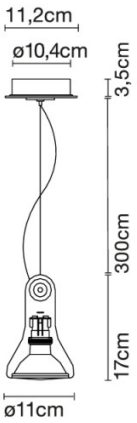

Marset Atlas Pendant Light is a small directed pendant by Joan Gaspar, based around a transparent polycarbonate shade that follows the outline of the included bulb. The design keeps the lamp and inner spotlight structure visible, rather than covering them with a solid shade. A white polyamide canopy and transparent cable keep the suspension simple.

The pendant version gives directed light, making it useful where a small pool of light is needed from above. It works well beside a bed, over a compact table, above a counter, or in a row over a longer surface. The transparent shade gives the fitting a light visual presence, while the included spot lamp provides a more focused output than a standard open pendant.

Atlas Pendant Light is hardwired and available in a Transparent finish, with 2700K and 3000K options. The product is designed around the included E27 LED spot lamp, so the bulb sits within the diffuser rather than protruding beyond it. Most suited to bedrooms, bedside areas, counters, small tables, desks, kitchen islands, cafés, hotels, and interiors where a compact pendant can provide directed light.

PRODUCT SPECIFICATION

Light Source:	**2700K**: 1 x Max 9.5W PAR30S 25D 2700K (Included) **3000K**: 1 x Max 9.5W PAR30S 25D 3000K (Included)
IP Code:	20
Dimming:	Dimmable via mains phase dimming.
Dimensions:	Shade: Ø11cm Shade Height: 17cm Cable Length: 300cm Ceiling Canopy: Ø10cm
