PRODUCT DESCRIPTION

Designer: BIG

Artemide Architectural Gople Outdoor Lamp

Gople Outdoor is the core body of the range, a lightweight, impact resistant diffuser that produces a soft, uniform wash for paths, thresholds and seating. Supplied for retrofit E27 lamps, it keeps servicing simple and allows you to select lamps that match the project, from warm hospitality zones to brighter, functional routes.

Mounting is defined by accessories, rope for suspension from structures or trees, spike for planting in soft ground, base for stable hardstanding, and bollard kits in three fixed heights where permanence and neat cable management are required. This keeps layouts coherent and maintenance easy across residential and hospitality landscapes.

As the official UK distributor, we can support you with the Artemide configurator and specification. Contact us at artemide@davidvillagelighting.co.uk.

PRODUCT SPECIFICATION

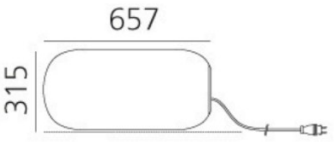

Light Source: 1 x Max 21W E27 (Excluded)

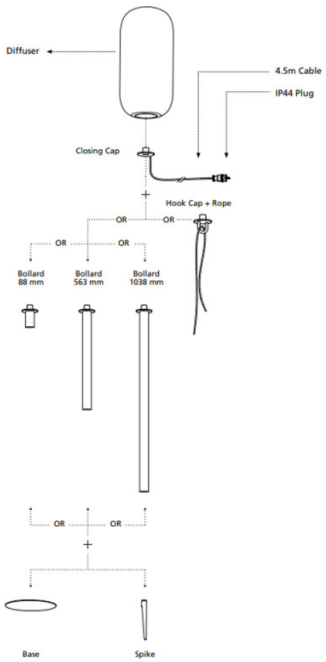

IP Code: 44

Dimming: Non-dimmable

Dimensions: Length: 65.7cm
Height: 31.5cm

Cable Length: 450cm
