PRODUCT DESCRIPTION

Designer: Jordi Canudas

Dipping Light LED Pendant Lamp
by Marset

Designed by Jordi Canudas, the Dipping Light pendant expands upon his ever popular [Dipping Light collection](#). The shade is made from glass which is painted to create a gradient colour effect that is eye-catching and vivid. Unlike the Dipping Light table lamps, the pendant lamp version has an almost pure effect as all else is stripped away to leave the raw colour glass globe.

Emitting a diffused glow, the Dipping Light pendant provides ambience and a decorative touch, creating a beautiful and stunning aesthetic in any interior. The pendant light comes in three sizes, Dipping Light 13, Dipping Light 20 and Dipping Light 30, with each number representing the size of the glass sphere. Mix and match between the three colours and three sizes to create variety and use in domestic or professional settings.
