PRODUCT DESCRIPTION

Designer: BIG

Louis Poulsen Keglen LED Table Lamp

The Louis Poulsen Keglen LED Table Lamp was designed by BIG Ideas, a design collective that uses shared knowledge to create functional and aesthetic designs. The main feature of this LED table lamp is the organic geometry that dominates the design. The cone-shaped shade provides a perfect ambience that adds a graphic and simplistic aesthetic. As the stem of the lamp extends up into the shade, it morphs with the diffuser, creating the iconic design that is seen in the **Keglen Collection**.

Available in both a Black and White finish, the wet-matt painted aluminium shade plays with light and reflections beautifully. This means that the Keglan Table Lamp is just as stunning turned off as it is turned on. The simplicity is not only evident in the aesthetic but also in its functionality. For example, the stepless touch dimmer on the base of the light makes it easy to alter and adjust the dimming settings. There is also an option to program this LED table lamp and disable the switch, and introduce an integrated memory function. This would allow you to program the lamp to return to its latest adjusted lumen output when turned on.

PRODUCT SPECIFICATION

Light Source:	8.5W, 3000K, 513 Lumens
IP Code:	20
Dimming:	Integrated dimmer on product.
Dimensions:	Ø17.5cm Height: 44cm Cable Length: 230cm
