PRODUCT DESCRIPTION

Designer: BIG

Louis Poulsen Keglen LED Wall Light

The Louis Poulsen Keglen LED Wall Light was designed by BIG Ideas and follows on from the **Keglen Collection** in which simplistic geometrical design is paired with functionality. The Keglen wall light features a shade which is angled parallel to the wall box and allows the light to be pushed further out from the wall. The diffuser inside the shade is made visible as the angle of the shade allows for optimum light output. This diffuser also prevents any glare and creates a delicately diffused ambient light.

The functionality of this lamp is clear in the integrated dimmer switch in the wall box. This allows for the light to be mounted on the wall and the dimming setting to be manipulated with ease. This Louis Poulsen wall light also has the option of being mounted with the cable being plugged in or hard-wired into the wall. Available in a Black and White finish, this minimalist design adds a simplistic touch to any interior.

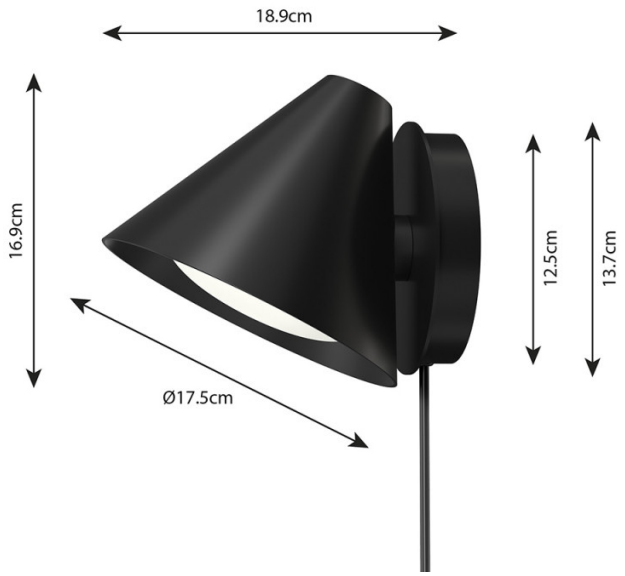

PRODUCT SPECIFICATION

Light Source: 8.5W, 3000K, 485 Lumens

IP Code: 20

Dimming: Integrated dimmer on product.

Dimensions: Shade: Ø17.5cm
