Astro Edge Reader LED Wall Light

SOURCE: <https://www.davidvillagelighting.co.uk/product/Astro-Edge-Reader-LED-Wall-Light/10000231>

PRODUCT DESCRIPTION

Astro Edge Reader LED Wall Light

This modern sleek wall light design by Astro features a dual light source that creates a functional and unique design. The matt white finish provides a simple visual feature which appears to be hovering just against the wall. This illusion is created through the use of an LED strip behind the wall base that illuminates the wall with a soft ambient light. The secondary light source is a more direct beam that can be manipulated and angled in any specific direction. This spotlight feature within the Edge Reader LED wall light adds another element to the functionality of the design. Perfect for a reading area, a work space or bed side, the Astro wall light can create an illuminating diffused light as well as a focused directional spotlight.
